Total by Month	65	29	21	16	15	

Statewide Goal

Reduce and maintain
single antigen orders
at no more than 3%
of total orders.

Currently at 2.2%

Totals do not include seasonal
influenza vaccine orders.

Totals do not include appropriate
single antigen orders from
hospitals and clinics that offer
only one or two vaccines.

November and December totals
do not include single orders for
Varicella or MMRV due to
ordering constraints.
